

Victorian Government Solicitor's Office

Monthly Seminar Series

Monday 23 October 2017

Cyber Security: The Whole of Victorian Government approach to improve capability and resilience

Victoria's first Cyber Security Strategy was released in August. It details a whole of government approach that focuses on five key priorities - engagement, planning, partnering, service maturity and capability.

The Victorian Government Solicitor's Office is proud to host a panel discussion to explore the current and emerging cyber threat environment and some of the actions to be taken to increase the government's cyber security capability and resilience over the next two years and beyond.

The discussion will be facilitated by Isabel Parsons, Managing Principal Solicitor, who will pose a series of questions to our experienced panel members, encouraging exploration of the technical, risk-management, procurement and legal considerations associated with cyber security.

Panel discussion facilitated by **Isabel Parsons**

Managing Principal Solicitor, IT/IP Team
Victorian Government Solicitor's Office

Your panellists

Andrew Davies

General Manager, Service Delivery
Victorian Managed Insurance Authority

Andrew is General Manager of the Service Delivery division at VMIA, which comprises the claims handling and risk advisory teams, servicing all our Victorian Public Sector clients.

Andrew has a keen interest in enhancing the experience for VMIA's clients, focusing on the use of risk management as a strategic enabler. He has a background in management consulting and change leadership, having worked globally across a diverse range of industries. He has held executive leadership roles in both financial services and large health care organisations.

Jeff Warren

Cyber Security Advisor
Department of Premier and Cabinet

Jeff Warren is a seasoned IT professional with 15+ years experience working in Information Security Risk Management.

He has extensive experience working in the Victorian public sector, including assignments at departments such as DPC, DTF and DHHS. Jeff's most recent work and roles include co-authoring the Victorian Government Cyber Security Strategy and managing a VPDSS compliance project. Jeff is currently a member of the Victorian Government Cyber Security Strategy Group and the Victorian Government shared service customer cyber security working group.

Michael Bouchaud

Manager, Information Security
Department of Premier and Cabinet

Michael is an experienced Information Security Manager, skilled in the definition and delivery of an information security program of work and the management of cyber security incidents and breaches.

Michael is a member of the Victorian Government Protective Security Governance and Policy Taskforce and the Victorian Government (WoVG) Information Security Advisory Group. He also Chairs the DPC Information Security Committee.

Tina Lee

Principal Solicitor, IT/IP Team
Victorian Government Solicitor's Office

Tina's practice focuses on IT procurement, software licence and hardware purchase agreements, cloud services, agile software development, IT project management, and IP and data protection advice.

Tina has prepared many bespoke contracts for complex government IT projects, including contracts for cloud-based hosting services for a flood warning system and agreements for project management and IT system development for Victorian water data monitoring projects involving over 40 government parties. Tina has also advised on data protection issues, including risk management and compliance requirements. Tina leads the Technology and Data Protection Practice Group at VGSO.
